

UNIVERSITY OF GOTHENBURG

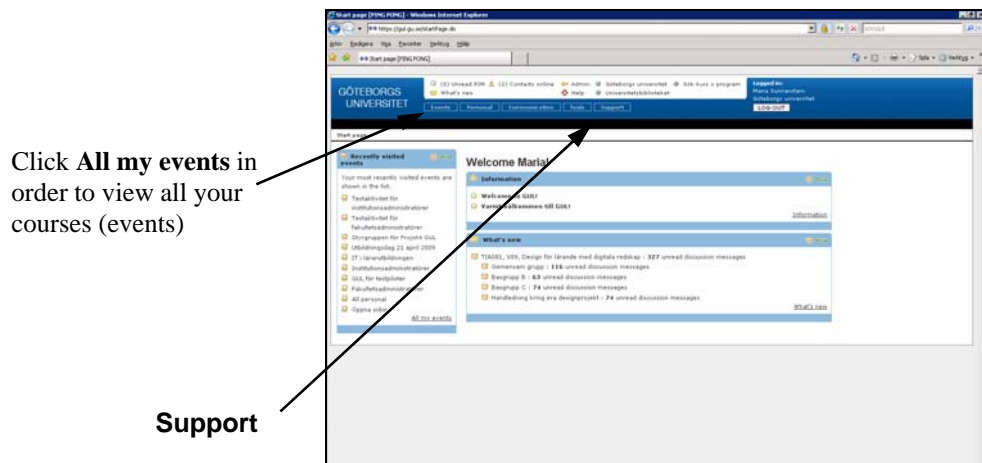

Welcome to GUL!

GUL is a recently introduced learning management system at the University of Gothenburg. GUL is a web-based tool developed to support communication and collaboration between teachers and students. It is the teachers in each separate course that decide whether GUL should be used or not in your course.

In order to reach GUL you need to be registered for a course or a programme at the University of Gothenburg. Once you have received your student account, you will be able to log in to the Student portal. This is where you will find the link to GUL. There is more information in the Student portal, follow the menu **GUL**.

Your courses (events) will be visible in GUL 24h after you have been registered for a course. In GUL, you will find all the courses available for you in **Events/All my events**. There are also on-line help functions and an introduction film to be found in **Support**.

For questions about access and login problems, contact Student Support: <https://konto.gu.se/gus/supportQuestion.php?lang=2> For questions concerning how GUL is used in you course, contact your teacher.
